

* PEDAGOGY OF DIFFERENCE

In this new era, "Era of Relations," can no longer think the logical dual (formal) Man and Woman as opposing pairs. But get another logic - the "Logic of the Triad", as an approximation ManandWoman, each with its own merits to find, at the interface, new meanings by complementarity and unity in difference.

An Education by the Era of Relations requires: Autonomy, Cooperation, Criticality and Aesthetic Sensitivity.
